## **COMMUNITY SERVICE PERMISSION FORM**

We want students to discover their passion for ministry and engage in acts of service. Sandia View Academy participates in community service programs throughout the school year. Students are required to earn 25 hours of community service each year and this gives us the opportunity to help them with their hours and expand their community service experience.

The undersigned hereby consents that the student has permission to leave campus with a school sponsor and participate in community service throughout the school year without further permission or consideration of the undersigned.

## **ACCEPTABLE INTERNET USE POLICY**

Sandia View Academy of the Seventh-day Adventist education system is pleased to offer their students access to a computer network for electronic mail and the Internet. To gain access to email and the Internet, both parent and student must sign and return this form to the school.

The Internet is a powerful resource for expanding the education experience of each student. Access to email and the Internet will enable students to explore thousands of libraries, databases and bulletin boards while exchanging messages with Internet users throughout the world. Unfortunately, it is true that some material accessible via the Internet may contain items that are illegal, defamatory, inaccurate or offensive. We believe, however, that the benefits to students in the form of information resources and opportunities for collaboration exceed any disadvantages and therefore, support the school's choosing to make the Internet available to our students. But because ultimately, parents and guardians are responsible for setting and conveying the standards that their children should follow when using media and information sources, we respect each family's right to decide whether or not to apply for access for their student while at SVA.

Since the network is provided for students to conduct research and communicate with others, access is given to students who agree to act in a considerate and responsible manner. Parental permission is required. **Access to our Internet is a privilege-not a right.** Access entails responsibility.

Students are responsible for Christian behavior and communication on the school computer network, just as they are anywhere on the school campus. It is presumed that users will comply with school standards and will honor the agreements they have signed. The school takes very seriously the responsibility for appropriate use of the network. School staff will guide students toward resources acceptable within the framework of the general school standards. If a student should access inappropriate material, the school will not be liable and the student will forfeit network privileges at this institution.

Computer storage files will be treated like school lockers. School staff may review files and communication to maintain system integrity and insure that users are using the system responsibly.

Students will adhere to Christian principles and will:

- be responsible and courteous in all communications utilizing technology,
- be responsible with all computer hardware and software,
- keep their passwords to themselves,
- respect the confidentiality of folders, work and files of others,
- learn about and observe copyright laws.

Any activity not in accordance with these general rules may result in a loss of access as well as other disciplinary or legal action.

As a user of the school's computer network, I agree to comply with the above stated rules (on the front) – communicating over the network in a reliable fashion while honoring all relevant laws and restrictions.

**Student Signature** \_\_\_\_\_

As the parent or legal guardian of the student signing above, I grant permission for my son, daughter or legal charge to access networked computer services such as electronic mail and the Internet. I understand the individuals and families may be held liable for any inappropriate behavior. I understand that some materials on the Internet may be objectionable, but I accept responsibility to work with the school in guidance of Internet use-setting and conveying standards for my child to follow when selecting, sharing or exploring information and media.
